## Port Bay Club Newsletter

December 15, 2022

Greetings Fellow Port Bay Club Members,

I hope everyone had a great Thanksgiving and has found time to get outside and enjoy the break from the summer heat. Duck season is in full swing with the second split underway. As you can see below, there has been great hunting so far this season with the redheads back in full force along with a healthy numbers of puddle ducks to be found. Tye, Jeremy, and Team are ready to go, and space is quickly filling up for the remainder of the season. I hope everyone has the opportunity to get down and enjoy the Club and watch sunrise from a duck blind!

A housekeeping note - during a visit from our local Game Wardens, it was brought to our attention that the motor shed refrigerator is a legal storage space for Club members' ducks, however we must keep a log of all stored birds. All members and guests are required to log their ducks after every hunt if they elect to keep birds in the community refrigerator. The alternative is bringing your own individual cooler to keep your birds in and the log is not required. Please feel to reach out to Tye, Jeremy, or myself if you have any questions. The Wardens' are an invaluable asset to helping protect the Club's hunting grounds we want to stay in their good graces (and avoid a fine). Please also remember to pick up your birds before leaving the Club.
